Abstract

Bundles L^AT_EX3 packages sharing the l3erw prefix.

List of packages in this bundle:

- l3erw-compose: compose control sequences, whether predefined or inline
- l3erw-csutil: narrow purpose control sequences (backend to other packages)
- l3erw-disambig: wrapper around `\NewDocumentCommand` to prevent name conflicts with external cmds
- l3erw-numbrdcs: numbered control sequences built from other control sequences or inline

1 Implementation

```
1 \NeedsTeXFormat{LaTeX2e}
2 \RequirePackage{l3erw-disambig}[2018/05/20]
3 \RequirePackage{l3erw-csutil}[2018/05/20]
4 \RequirePackage{l3erw-numbrdcs}[2018/05/20]
5 \RequirePackage{l3erw-compose}[2018/05/20]
```
